

Attendant Gift Suggestions

Your big day is fast approaching! By now, your wedding party has already helped you with so much – the bridal shower, wedding planning, emotional support, and more. Why not thank them with a special treasure that will remind them of your friendship and your special day?

Treat your bridesmaids to something fashionable and dazzling, like a pair of earrings or elegant pendant – our most popular bridesmaids' gift choices. Zales offers a wide assortment of affordable and beautiful jewelry, so you can give them the best without breaking your budget. For groomsmen, consider a pair of handsome cufflinks or a stylish money clip. If time permits, engraving each item adds a personal touch and special remembrance of your special day.

And please don't forget your parents! They've been there for you since day one. Tradition holds that the parents of the bride and groom should be given something timeless and classic. Elegant jewelry for mom and a sophisticated watch for dad, accompanied by your heartfelt gratitude, say "I love you" in an appropriate and meaningful way.
